

zoetis

Are you interested in learning more about EHV (Equine Herpes Virus)?

Join Zoetis, RosSDales Ltd and Liphook Equine Hospital as they discuss everything you need to know about EHV.

Wednesday 9th March 2022 at 7pm. This is a FREE online webinar

What is EHV?

Wendy will explain what equine herpes viruses are, how horses become infected and how the viruses can stay hidden inside the horse.

Dr Wendy Talbot BVSC DECEIM MRCVS
RCVS and European Specialist in Equine Internal Medicine
National Equine Veterinary Manager - Zoetis

How to recognise Equine herpesvirus infection: signs and symptoms of disease.

This presentation will cover the various different disease syndromes that equine herpesviruses can cause in horses.

Professor Andy Durham BSc BVSc CertEP DEIM DipECEIM MRCVS
RCVS and European Specialist in Equine Internal Medicine
Clinical Director at Liphook Equine Hospital

How to take your horse to competitions without taking problems home?

Every time horses mix, there is potential for spread of infectious disease. This presentation will outline practical steps horse owners can take to reduce disease risk and keep all horses healthy.

Professor Celia Marr, BMVS, MVM, PhD, DEIM, DipECEIM, FRCVS
RCVS and European Specialist in Equine Internal Medicine
Associate at RosSDales Ltd
